

MINING, BUSINESS AND STOCKS

DAVIS ESTATES AT GOLD SPRINGS

Options Secured on Valuable Property in Iron County Camp.

THE JENNIE GOLD MINE

Is a Center of Interest Now—Sensational Gold Values on 115 Foot Level.

The Davis Daily Estates company of Montana is seeking a foothold in Utah camps and has already secured options on several good properties in the vicinity of Gold Springs, Iron county.

According to an arrival from this southern Utah camp a representative of the above named corporation, named Crawford, has tied up the Drake and Donahue groups and has also secured an option on a control of the stock of the Homestake Mining company at Deer Lodge. All of the options are said to run for only a short time, and Mr. Crawford is now in Butte to confer with his principals.

The visitor says the talk of the camp just now is centered upon the Jennie mine, owned and operated by the Jennie Gold Mining company, of which Charles A. Short is manager. Recent developments made in this property indicate that it is going to be a big producer of gold ore with values as sensational as some of the ore mined from the mines of prominence in some of the Nevada camps. At the surface, croppings were found which assayed \$30 in gold to the ton. A shaft was sunk and at a depth of 115 feet a 14-foot ledge between two well defined walls has been opened. The first four feet of the vein on the hanging wall side gives average values of \$15 to the ton, the next four feet, \$6; while next to the foot wall is about five feet of ore carrying 24 ounces of silver and 11.3 ounces of gold—meaning a valuation of \$236 to the ton. A drift run for a considerable distance on this vein has revealed the fact that the values stated are being maintained. Officials of the company are very anxious that they have found a property that will prove to be one of the great gold mines of the west.

The General Engineering company of Salt Lake has been requested to draw the plans for the proposed mill, which will have an initial capacity of 30 tons a day, but provided with such facilities for power that the plant can be enlarged with the addition of another unit to the battery of stamps.

The Interstate Mining & Reduction company, which owns a valuable piece of ground near Gold Springs, will probably be on the active list again soon. The company has been handicapped by internal dissensions, but an effort is being made to effect a truce. The controlling interests are located in Los Angeles, and a request has been forwarded to Utah shareholders to meet them in the California city soon for a conference, at which it is hoped all difficulties will be amicably adjusted.

ON MINING EXCHANGE.

Week Opened With Business Brisk—Closing Quotations.

Mining stocks were active both in the local and eastern markets today. Carson led off with the sale of 800 shares at the opening of the regular call of the Salt Lake Stock & Mining exchange, followed by 2,800 more at 99 cents. Daily Judge attained to \$11.25, while Lower Mammoth did business at 73, up to 77 and then back to 75 cents. Beck Tunnel Consolidated opened strong, the stock selling at \$10.25. The closing quotations and sales were:

LOU DILLON PURCHASE.

Ground Secured Recently by Sullivan Trust Co.

Special Correspondence.

Goldfield, Nev., Oct. 3.—The development of the Mohawk into one of the greatest gold mines of the country, with a record production of from \$500,000 to \$1,000,000 per month, has attracted the attention of capitalists and big operators in the immediate territory adjoining Goldfield's famous bonanza. This has resulted in the consummation of several important mining deals in contiguous acreage, one of the most important of which was the purchase of the Lou Dillon claim, one of the great gold mines of the country, by a record production of from \$500,000 to \$1,000,000 per month, has attracted the attention of capitalists and big operators in the immediate territory adjoining Goldfield's famous bonanza. This has resulted in the consummation of several important mining deals in contiguous acreage, one of the most important of which was the purchase of the Lou Dillon claim, one of the great gold mines of the country, by a record production of from \$500,000 to \$1,000,000 per month, has attracted the attention of capitalists and big operators in the immediate territory adjoining Goldfield's famous bonanza.
